

# Financial Assistance and Scholarships

## Government Grants and Loans

Registered full-time students who satisfy the following conditions can apply for grants and loans under the “Tertiary Student Finance Scheme- Publicly-Funded Programmes (TSFS)”<sup>1</sup> administered by the Government Student Financial Assistance Agency (SFAA) of the Hong Kong Government.

The students should

- have the right of abode in Hong Kong; OR
- have had their homes in Hong Kong continuously for three completed years immediately prior to the commencement of their studies (this does not cover students holding student visas to study in Hong Kong)

AND

- be taking up an exclusively UGC-funded or public-funded student place in a recognised programme under TSFS.

Under this scheme, grants are awarded to cover tuition fees and academic expenses while loans are for living expenses. Moreover, Non-means Tested loans are also available to both full-time and part-time students<sup>2</sup> to cover tuition fees. Recipients of loans have to pay interest and are expected to repay the loans within a specified period after graduation or upon leaving the University. For details, please visit the SFAA website at [www.sfaa.gov.hk](http://www.sfaa.gov.hk).

## University Bursaries and Loans

A number of bursaries and loans are available for full-time financially needy students of exclusively UGC-funded or public-funded programmes who are Hong Kong permanent residents. The bursaries and loans are open for application in September. As these are in general supplementary to TSFS provided by the Government, students should first apply for TSFS.

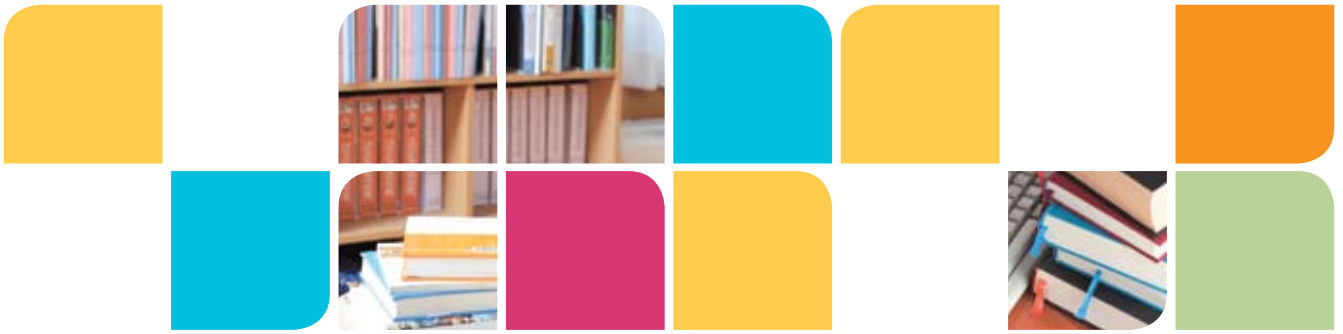

Students not covered by TSFS may approach the Scholarships and Financial Aid Section, Office of Admissions and Financial Aid (OAFA) to discuss their needs and seek advice and assistance as necessary.

Students with emergency needs arising from sudden changes in financial conditions can also apply throughout the year with relevant supporting documents.

Application forms can be downloaded from the OAFA website at [www.cuhk.edu.hk/adm/sfas](http://www.cuhk.edu.hk/adm/sfas) in September.

1 Details of eligibility would be confirmed by the Government Student Financial Assistance Agency (SFAA) around April every year on the SFAA website ([www.sfaa.gov.hk](http://www.sfaa.gov.hk)). Enquiries can be made directly to the SFAA.

2 Applicants must have right of abode in Hong Kong or have resided or have had their homes in Hong Kong continuously for three completed years immediately prior to the commencement of their studies (this does not cover students holding student visas to study in Hong Kong.)

## Scholarships and Prizes

The University also administers a number of scholarships and prizes, which are awarded on the basis of academic performance. Nominations from Faculties/Departments are normally needed for most of these scholarships/prizes, whilst those for overseas studies are usually open for application. Further information on scholarships and prizes are available from the OAFAs website at [www.cuhk.edu.hk/adm/sfas](http://www.cuhk.edu.hk/adm/sfas).

## Financial Assistance/Scholarships for Disabled Students

Financial assistance/scholarships for disabled students are available through various schemes supported by outside organizations. Disabled students may approach OAFAs to discuss their needs and seek advice and assistance as necessary.

Ms. LAM Wing Wah (MSSc in Clinical Psychology / Year 1) and Ms. HUANG Xiaojing (Postgraduate Certificate in Law / Year 1) have been awarded the HKSAR Government Scholarships for the academic year 2008/09.
